

SUPPLEMENTAL TERMS - TWO COLUMN FORMAT

A. DEFINITIONS

"Authorized User" means an employee or contractor of Customer permitted to access the Services under the applicable SOW.

"Deliverable" means any report, dataset, model artifact, or documentation identified as a deliverable in an SOW.

"Service Window" means the recurring maintenance period from 02:00 to 05:00 Eastern Time each Sunday.

B. SERVICE LEVELS

Provider targets monthly availability of ninety-nine and five tenths percent (99.5%) measured outside the Service Window.

If availability falls below the target in two consecutive months, Customer may request a service credit equal to five percent (5%) of the monthly fee.

Service credits are the sole remedy for availability shortfalls and must be requested within thirty (30) days of the affected month.

C. DATA HANDLING

Provider shall process Customer data only to deliver the Services and shall not sell or share that data with unaffiliated third parties.

Provider shall delete or return Customer data within sixty (60) days after termination, except for copies retained in routine backups.

Customer remains responsible for the accuracy and lawfulness of the data it submits to the Services.

D. CHANGE CONTROL

Either Party may propose a change to an SOW by submitting a written change request describing the scope and fee impact.

A change request becomes binding only when signed by both Parties. Work continues under the existing SOW until then.
